+639760945009

Quezon City, Philippines

SKILLS

FRONTEND

React, Next.js, TypeScript, JavaScript, Redux, Angular, Tailwind CSS, Material UI, CSS3, shadcn/ui, Zustand, React Query

BACKEND

Node.js, Express.js, Python, Django, Socket.io, WebSockets, REST APIs, GraphQL, JWT, NestJS

DATABASES & ORM

PostgreSQL, MongoDB, MySQL, Redis, DynamoDB, Sequelize, TypeORM, Mongoose, Prisma, Firestore

3D/2D GAME DEVELOPMENT

Three.js, Blender, WebGL, Rapier, Cannon.js, Phaser.js, PixiJS, Spine, ImpactJS

CLOUD & DEVOPS

AWS (EC2, S3, Lambda, RDS, DynamoDB, CloudFront, IAM, CloudWatch, Lightsail), GitHub Actions, Docker, Nginx, Azure, GCP

TOOLS & Design

Git, GitHub, Postman, Jira, Figma, Trello, Codex, Mocha, Jest, Power BI, Ionic, Cordova, Sketch, Photoshop

EDUCATION

Bachelor of Science in Information Technology

SYSTEMS TECHNOLOGY INSTITUTE - 2005 - 2009

Google Tools for Election Workshop
Google - 2015

Web Design and Development
First Academy of Computer Arts - 2015

Adobe Flash ActionScript 3.0
Philippine Center for Creative Imaging - 2013

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 10+ years of software development experience across SaaS, E-commerce, fintech, logistics, and browser-based games. Strong in React, Next.js, TypeScript, Node.js, AWS, and Three.js, with production experience in Python Django, PostgreSQL, MongoDB, and GraphQL. Experienced in building products from the ground up, taking over existing production systems, solving performance and security challenges, and delivering applications from development through cloud deployment.

EXPERIENCE

3D GAME DEVELOPER

Feb 2025 - Aug 2026

Pixelbro

- Built a 3D Plinko game from the ground up using Three.js and TypeScript, owning the technical setup, gameplay implementation, physics integration, and overall development approach.
- Evaluated and integrated Rapier and Cannon.js for physics-driven gameplay, refining game behavior and performance.
- Built 2D Plinko and casino slot games from scratch using PixiJS, and extended existing game-engine components to support new 3×8 slot layouts.
- Optimized Three.js performance for mobile devices and shipped production games through AWS S3 with automated deployments using GitHub Actions.

Tech Stack: ***Three.js · TypeScript · Rapier · Blender · Cannon.js · PixiJs · AWS S3 · Vite · Github Actions ·***

FULL-STACK DEVELOPER

Jul 2024 - Sep 2024

KEA Trucking

- Built an MVP logistics monitoring platform from the ground up using Next.js, Python, and PostgreSQL to manage daily deliveries and transaction records.
- Developed backend APIs and relational data models for delivery coordinates, status updates, comments, and delivery timestamps.
- Containerized and deployed the application using Docker, Nginx, and AWS EC2.

Tech Stack: ***Next.js · TypeScript · Python · PostgreSQL · REST APIs · Docker · Nginx · AWS Ec2 ·***

FULL-STACK DEVELOPER

Mar 2023 - Mar 2024

Mir Tech

TRAQPLAN.com - Project Planning & Portfolio Visualization

- Took over development of an existing Angular 13 and Express.js application after the lead developer's departure, quickly adapting from previous AngularJS experience while continuing delivery of full-stack features and project milestones.
- Developed across Angular, RxJS, PrimeNG, Express.js, PostgreSQL, and Power BI, contributing to application functionality, data structures, changing product requirements, and production releases.
- Supported deployments across the core application, Power BI solution, and Next.js marketing site using Docker, Rancher, and Microsoft Azure.
- Remediated high-risk security vulnerabilities identified through penetration testing, implementing application-level fixes based on security assessment finding.

Tech Stack: ***Angular 13 · TypeScript · RxJs · PostgreSQL · PrimeNG · Docker · Express.js · Next.js · Rancher · Microsoft Azure · Power BI ·***

TERASEKONE.com - Fintech Web Platform

- Joined an existing fintech application to accelerate development toward project completion, quickly adapting to Python/Django while delivering features across both the frontend and backend.
- Developed React/Vite components and Django API endpoints within the existing PostgreSQL application, working with AWS S3 and RDS alongside the lead developer.

Tech Stack: ***Python Django · React · Vite · PostgreSQL · AWS S3 · RDS · Bootstrap · Jira ·***

SMARTRENTAL.asia - IT Equipment Rental & Subscription Platform

- Developed new features for an office equipment rental e-commerce platform using Next.js and GraphQL, contributing to frontend functionality, API integration, and data-structure decisions.
- Guided a junior developer in implementing assigned components and provided technical development support.

Tech Stack: ***TypeScript · Next.js · GraphQL · Jira ·***

EXPERIENCE

FULL-STACK DEVELOPER

Dec 2022 - Feb 2023

HCUISINE - Restaurant E-commerce Platform

- Built a restaurant e-commerce platform using React and TypeScript to support online ordering and customer transactions.
- Implemented cloud-backed functionality using AWS Lambda, API Gateway, DynamoDB, SNS, S3, IAM, Route 53, and EC2.

Tech Stack: ***AWS Lambda*** · ***TypeScript*** · ***API Gateway*** · ***DynamoDB*** · ***AWS SnS*** · ***AWS IAM*** · ***AWS S3*** · ***Route53*** · ***AWS EC2*** ·

FULL-STACK DEVELOPER

Oct 2022 - Nov 2022

DEFI DEVSHOP - ToothAndCoin app

- Delivered dashboard pages and application features for ToothAndCoin using Next.js and TypeScript.
- Integrated application data using Sequelize and PostgreSQL, while building interfaces with Material UI and Tailwind CSS in a Docker-based environment.

Tech Stack: ***Next.js*** · ***TypeScript*** · ***Sequelize*** · ***PostgreSQL*** · ***Docker*** · ***Material UI*** · ***Tailwind CSS*** ·

FULL-STACK DEVELOPER

Oct 2021 - Aug 2022

MUNISIPYO - Directory Web App

- Developed a serverless directory web application using Next.js, TypeScript, and GraphQL.
- Worked with AWS services including S3, Lambda@Edge, DynamoDB, CloudFront, CloudFormation, Route 53, and CloudWatch, with Material UI for the frontend.

Tech Stack: ***Next.js*** · ***TypeScript*** · ***GraphQL*** · ***AWS Lambda*** · ***DynamoDB*** · ***CloudFront*** · ***CloudFormation*** · ***AWS S3*** · ***Material UI*** ·

WEB DEVELOPER

Jun 2020 - Jan 2021

EXPERIENCE DIGITAL - UPFLOWY APP (No-Code Customer Flow & Conversion Platform)

- Developed features and reusable components for Upflowy's SaaS platform using React, TypeScript, Node.js, GrapesJS, and Tailwind CSS.
- Integrated and maintained Firebase/Firestore and HubSpot services supporting application data and customer workflows.

Tech Stack: ***REACT*** · ***TypeScript*** · ***Node.js*** · ***GrapesJS*** · ***TailwindCSS*** · ***Firebase*** · ***Firestore*** · ***HubSpot*** · ***Google Cloud*** ·

FULL-STACK ENGINEER

Nov 2018 - Jun 2020

BANANA BANNERS - E-Commerce Platform

- Designed the application structure and built an e-commerce platform for a digital printing company using MongoDB, Express.js, React, Node.js, and TypeScript.
- Implemented application state, authentication, payments, and supporting functionality using Redux, JWT, Passport.js, Nodemailer, and Stripe, with Docker and Heroku supporting development and deployment.
- Managed a small Agile development team and handled project delivery, coordinating development work through completion

Tech Stack: ***REACT*** · ***TypeScript*** · ***Node.js*** · ***MongoDB*** · ***Redux*** · ***JWT*** · ***Passport.js*** · ***Stripe*** · ***Docker*** · ***Heroku*** ·

HTML5 GAME DEVELOPER

Nov 2016 - May 2018

NEW ORIENTAL CLUB 88 - Online Casino Platform

- Built and maintained HTML5 online casino games and white-label gaming websites using Phaser.js, WebSockets, Node.js, and JavaScript.
- Temporarily managed the development department, coordinating directly with the CEO and other managers on project status and technical concerns, while also participating in developer interviews

Tech Stack: ***HTML5*** · ***JavaScript*** · ***Phaser.js*** · ***WebSockets*** · ***Node.js*** · ***Grunt*** ·

SHOPIFY DEVELOPER

Jun 2016 - Oct 2016

1STAPPEARS

- Modified Shopify themes and supported product/inventory management for an online store.

Tech Stack: ***Shopify*** · ***Liquid*** ·

WEB & GAME DEVELOPER

Oct 2015 - Jun 2016

HARI MANILA DIGITAL

- Built a side-scrolling browser game using ImpactJS and developed the Bayang Matuwid website using WordPress.
- Converted the browser game and a volunteer web application into mobile applications using AngularJS, Ionic, and Cordova, extending existing web functionality to mobile platforms.
- Supported the company's technical environment, maintaining computer networks, hardware, system software, application software, and related configurations.

Tech Stack: ***JavaScript*** · ***AngularJS*** · ***Ionic*** · ***Cordova*** · ***Wordpress*** · ***ImpactJS*** ·

EARLIER TECHNICAL EXPERIENCE

Mar 2009 - Dec 2013

EES ENTERPRISE (2009-2011) · TRES HERMANAS INC (2010-2013) · PHILIPPINE STOCK EXCHANGE (2008)

- Early-career experience spanning software/web development, inventory systems, network and IT infrastructure administration, and technical support.

Tech Stack: ***Visual Basic*** · ***MySQL*** · ***Adobe Flash*** · ***Networking*** · ***CCTV*** · ***Photoshop*** ·
